# SustainaBuild: the Trends for Inspiration

25 March 2009 (Wednesday), 8:30am – 5:30pm  
 Hong Kong Productivity Council  
 78 Tat Chee Avenue, Kowloon Tong, Hong Kong

## SECOND ANNOUNCEMENT

The sustainable design of buildings integrates the consideration of resource and energy efficiency, healthy buildings and materials, ecologically and socially sensitive land use and an aesthetic that inspires, affirms and enables. This seminar aims to offer a forum for specialists in sustainable buildings to discuss among various agenda and trends including environmental implications of design, construction, operation and demolition of buildings; materials, components, systems; embodied and operating energy; water conservation; waste minimisation and recycling; design and construction process; indoor environmental quality; conservation rehabilitation and reuse of old buildings; and carbon footprint, etc. The tentative programme is as follows:

8:30am-9:00am	Registration and Reception
9:00am-9:30am	Keynote Address <i>by Dr Kitty POON, JP, Under Secretary for the Environment, Environment Bureau, Government of the HKSAR</i>
