

Dear all,

Jointly organized by the Hong Kong Climate Change Forum and The Climate Group, **the 2nd International Conference on Climate Change 2009** will be held on 7 – 9 October 2009. The conference will bring together leading experts from a wide range of disciplines to discuss the impact realities of climate change. It also serves as an important regional platform for stakeholders to enter into dialogue on policies and new strategies in sustaining business growth and managing risk in the context of climate change.

Mr. Andrew Lawson from Civic Exchange will present in the plenary session entitled “What will it take for the world to wake up about climate change?” - a session on discussing what would it take for the world to mitigate/adapt to climate change; and what is the amount of climate change people need to wait and see until they wake up.

Please refer to the conference website and programme below for details and registration :
